Data Sheet**

MSDS. Rev. No.: 5 Date: 07/2008

I Product: ALCAVIS 100 (undiluted full strength)		
Description: CLEAR, LIGHT YELLOW LIQUID WITH SLIGHT CHLORINE ODOUR		
Composition	Manufacturer	Emergency Telephone No.
Sodium Hypochlorite 1.02% Sodium Chloride 18% Excipients Depurated water q.s. to 100ml	ACRAF S.p.A. Via Pontasso 13 16015 Genoa ITALY	Alcavis HDC, LLC 8322 Helgerman Court Gaithersburg, MD 20877 USA Phone: 301-330-7597 Fax: 301-330-6432
II Health Hazard Data	IV Special Protection and Precautions	
Contact with eyes may cause temporary discomfort, but no permanent injury. Contact with skin causes no adverse effects. Ingestion of the product can cause hiccups and distension due to the release of chlorine gas. There are no inhalation exposure problems and no reported adverse effects due to acute exposure. There is no chemical similarity with known carcinogens or mutagens. No reported effects following more than 50 years of clinical use and application. When following the recommended usage instructions, the likelihood of any adverse health effects are low. FIRST AID: EYE CONTACT: Immediately flush eyes with plenty of water. If irritation persists, seek medical attention. INGESTION: If swallowed, drink large quantities of milk or gelatin solution. If these are not available, drink large quantities of water and call a physician. Do not give vinegar or other acids. Do not induce vomiting. Antidote: Sodium thiosulphate; gastric lavage. INHALATION: If breathing problems occur seek fresh air immediately.	No special protection is needed under normal consumer use conditions. Do not mix with acid substances, it may release hazardous gases. Store in a cool dry area, away from direct sunlight and heat.	
	V Spill or Leak Procedures In case of spills, flush area with water. The product should be diluted with water before disposal in sanitary sewer.	
LD50 Oral-rat: 26.4 ml/kg	VI Fire and Explosion Data Not flammable or explosive. When poured on fire behaves as water. In a fire, cool containers to prevent rupture and release of sodium hypochlorite.	
	VII Reactivity Data Stable under normal use and storage conditions. Strong oxidizing agent. Reacts with other household chemicals such as toilet bowl cleaners, rust removers, vinegar, acids or ammonia containing products to produce hazardous gases, such as chlorine and other chlorinated species. In case of chemical contamination of the product do not reseal container. High temperature and direct sunlight may cause swelling of the container. Stable for 30 months.	
III Hazardous Ingredients	VIII Physical Data	
Available chlorine* 1.02% CAS No. 7782 - 50 - 5 * Available chlorine is composed of hypochlorite ion (OCI) and hypochlorous acid (HOCl). None of the ingredients are classified as hazardous ingredients.	Boiling point 100 - 104°C Freezing point 0° / -12° C Specific gravity (H2O=1) 1.12 Solubility in Water complete pH 10 Form Liquid Colour Slightly yellow Odour Slightly of chlorine	
	IX Disposal Considerations Disposal of the product must be in compliance with the local laws about Active Chlorine and Chlorides in the sinks and sewers. Not dangerous for the environment. Completely biodegradable.	
X Preparation Information This MSDS must be shown each time you seek for medical attention for emergencies. The information contained herein is believed to be accurate. It is provided independently of any sale of the product as part of Amuchina S.p.A. product safety program. It is not intended to constitute performance information concerning the product. No express warranty, or merchantability of suitability for a particular purpose is made with respect to the product information combined herein.
